Color Duplex Workgroup Scanners

fi-6130/fi-6230

Discover a new level of front-office productivity with the fi-6130 and fi-6230 documents scanners. Enhanced with innovative features, the Fujitsu fi-6130 and fi-6230 scanners offer outstanding price/performance value in a compact footprint, conserving both space and budget. With duplex scanning performance of up to 80 images per minute in monochrome and grayscale, the fi-6130 and fi-6230 also delivers uncompromised high-resolution performance of up to 60 images per minute in color at an astounding 300 dpi. Engineered with one of the most advanced paper separation features in their class, the fi-6130 and fi-6230 are the first workgroup scanners equipped with reversing roller technology*, resulting in exceptional feeding reliability for an even wider variety of document weights. Furthermore, the automatic document feeder (ADF), capable of scanning document up to 10 feet long, is also robust enough to feed up to three hard cards continuously or an embossed card up to 1.4 mm in thickness. Additionally, the fi-6130 and fi-6230 harmoniously combines the security of Ultrasonic Double Feed Detection with the efficiency of Intelligent MultiFeed Function (iMFF) so that intentional double-feeds, such as a taped receipt or sticky note, can be manually bypassed while double-feed detection is enabled.

Fully Loaded One Box Solution.

Fujitsu fi-6130 and fi-6230 workgroup scanners conveniently include everything in the box to get organizations up and scanning. With the full version of Kofax VRS® Professional, Adobe® Acrobat® Standard, and ScandAll Pro software, users get image enhancement functionality as well as the option of scanning directly to PDF, file, print or batch. And the one-year Limited Warranty, along with eligibility for our Advance Exchange Program, provides peace-of-mind. ¹ Maximum output resolutions may vary, depending upon the size of the area being scanned and whether the scanner is scanning in simplex or duplex.
² Scanning limitations brought about by scanning mode, document size and available memory may occur when scanning at high resolutions (600dpi or higher).
³ Actual scanning speeds are affected by data transmission and software processing times.
⁴ JPEG compressed figures.
⁵ Maximum capacity varies, depending upon paper weight.
⁶ Supports ISO7810 embossed cards.
⁷ Able to digitize cards that are up to 1.25mm thick when scanning in monochrome at 200dpi (60ppm).
⁸ Capable of scanning up to 3 cards at a time. (Note: does not support multi-embossed card feedability).
⁹ The scanning of documents that exceed 35 inches in length will be limited to using TWIN at 200 dpi or less.
¹⁰ Excluding the ADF paper chute and stacker.
¹¹ PFI Limited, a Fujitsu company, has determined that this product meets RoHS requirements (2005/95/EC).
